

MAY 2011

Dear Parents,

What a wonderful school year we have had! It is so hard to believe it is coming to an end. We have grown to love each child and will miss them greatly. They have been a pleasure to teach, nurture and watch evolve into all around amazing children.

This month we will continue to work on word families. The sight words for the month are: like, come, away, not, run, where. Please continue to work on these at home with your child. We have started graphing in math. We will work with pictographs and object graphs each week. The children are doing a great job constructing and reading the graphs. In science we will be doing "experiments". We will do a different science experiment every Friday during the month of May.

Our final class party will be Wednesday, May 25th at 10:45. The theme of the party is "At the beach and having fun".

Again, thank you for all your support this school year. It has been a pleasure teaching your child. We will cherish all the memories we have experienced with this wonderful class. We wish each one of them happiness and a lifelong love of learning.

Sincerely,

Lana Vargo & Dawn Scott
