

## March 2012 Newsletter Pre-K 4

Dear Parents,

Congratulations to all our wonderful “dinosaurs”! It was fun to watch all the children enjoy themselves so much.

This month we will continue in our Primary Phonics workbook and read the accompanying books. The last week of February we all completed Mac and Tab the first book in the series! The children were very excited to begin reading the books. As we go through the month of March we will read the books that coordinate with our Primary Phonics workbook. I will continue to send home the new words that are introduced.

In our math program we will work on the numbers 18, 19, and 20. We will continue our graph of the week, counting by tens to one hundred, and also review the three dimensional shapes.

The children continue to make excellent progress in handwriting. This month we will focus on “descending” letters—g, j, p, and q.

We have some fun experiments planned for this month.

We are excited about our Book Fair. I hope you and your child will plan to attend.

**Patty and Diane**
