

May News

Mrs. Kidder & Mrs. Jackie's Class

Literacy

We have been reviewing the vowels and their two sounds. We will continue to review all the letters and the sounds they make. We will also add to our sight word list. This month I will be going out of order with the word list. I will be picking the words I think are most important. The words are for, you, and, me & look.

Math

We have completed our number study to 20. The children are doing great recognizing these numbers! Keep practicing at home as well. We have had fun learning to measure objects in our classroom using our connecting cubes. We will be continuing to work with combining and separating sets, graphing & money.

Writing

The children have come a long way with their writing! We will keep reviewing the formations of the letters and practice writing them. We will continue to use our magnetic boards to practice our writing and other fun activities to strengthen their fine motor skills.

Reminders

May 3 - Ocean Program 9:00
May 10 - Muffins with Mom 9:00
May 24- Last day of school (Noon dismissal)

Earth Day

The children had a blast participating in our recycle relay and planting their special plants. Thank you again for bringing in such beautiful plants to put in our butterfly garden! It looks great!!!
