Mrs. Lively and Mrs. Scott's Pre-K Class
jlively@thebowmanacademy.com

Literacy

We have been continuing to practice our word families. The word families have really helped the children with spelling and reading simple cvc (consonant-vowel-consonant) words. Our new sight words this month are: two, more, write, go, see, number, no, could, way and people. We are practicing retelling the beginning, middle and end of stories that we read in class. The children have also been working on sequencing events and drawing/labeling what you do first, the sight words and retelling at home when you read.

Earth Day

The children had fun learning about Earth Day and planting their special plants. Thank you for bringing in such beautiful plants to put in our butterfly garden. Also, thank you to Annalise's dad, Jace's grandmother and Zacahry's mom for helping!

Important Dates

May 6th- Muffins for Mom 9:00

May 26th - End of Year Party

May 27th - Last Day of School

11:45 Dismissal (No aftercare available)

Math

We have completed our number study to 20. The children have done great learning to recognize the numbers 0-20. We are starting to learn about measurement and the children will practice measuring by using our connecting cubes. We will also continue working on combining and separating sets and graphing.

Writing

The children have come a long way with their writing. We are practicing using our writing plans and will begin writing simple sentences with capital letters at the beginning, as well as using appropriate spacing and punctuation.

Science

In science we enjoyed the life cycle of a butterfly. The children loved watching our caterpillars change into beautiful butterflies. We also learned the parts of a plant and what they need to grow. This month we will be learning about all different kinds of ocean animals.

Class Program

The children worked so hard and did such a wonderful job performing. They made me so proud!!! I will miss them all next year.
