

Dear families,

I have the most fun job at Bowman Academy! My name is Mercy Bennie. Every Tuesday and Wednesday, I spend the morning singing, dancing and playing instruments with your children. I see each class for 15 to 20 minutes and try to musically incorporate social skills, basic age appropriate concepts such as colors, numbers, holidays, body part identification, letter sounds, and so much more. I use scarfs, bells, a parachute, rhythm sticks, castanets, shakers, balls of different sizes to keep lessons fresh, and yes, shaving cream on tables.

I enjoy sharing tunes from the past with the children as a fun history lesson. The classes will hear age appropriate music by the Beatles as well as Bing Crosby and lots in between. They will learn about the calendar year through songs about the holidays.

After lunch, I am available for private keyboard lessons. There is a brochure available in the office with further information.

I look forward to a new school year and thank you in advance for the fun I will have sharing music with your children.
