

Ms. Marlise's Pre-K 2 April 2024 Newsletter

Dear Parents,

This month we are welcoming spring and all of the beautiful changes nature brings! Our theme this month will focus on insects, flowers, and other garden life. We will explore changes that are happening in nature during this season. Our classroom will be getting our very own caterpillars and we are going to watch them grow, form a chrysalis, and turn into beautiful butterflies! We will also plant our own grass head plants! We will water them and watch them grow each day in class! Other concepts that will be introduced include:

Color: **Yellow**

Shape: Oval 

Number: 9

Nursery Rhymes/Stories:

The Very Hungry Caterpillar

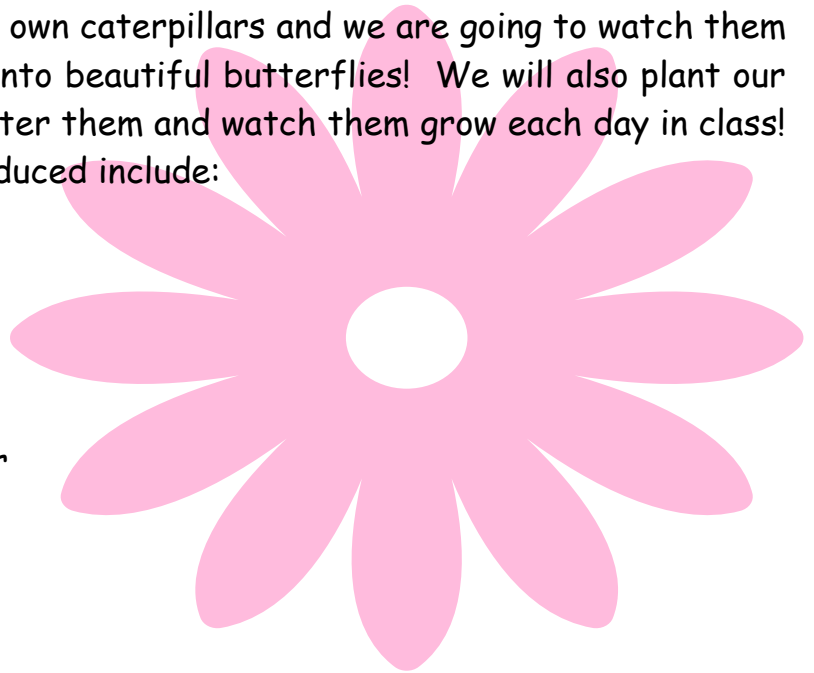

Busy Butterflies

Ten Little Caterpillars

The Surprise Garden

When Spring Comes

Humpty Dumpty

On **Thursday, April 18th (T/TH Class)** and **Friday, April 19th (MWF Class)** your little ones will perform their class program that they have been working so hard on for the last two months! They may dress in their favorite school outfit for the program! Please look out for important information regarding the program the week prior. Family members are invited to the show that will begin at 9am.

Please be on the lookout for an order form for our school yearbook through TreeRing!

Sincerely,

Ms. Marlise, Ms. Joani, and Ms. Sophia
