

Ms. Mary & Ms. Lisa's Pre-K 3 September 2024 Newsletter

We have had a great beginning to our year in Pre-K 3! The students have adjusted well to our new classroom routine, and they are enjoying their “big kid’s class!” In the past few weeks, we have made connections with classmates, learned all about ourselves, our friends, and teachers. We have also been reviewing colors, shapes, and our five senses.

We will now begin our exploration of the alphabet, as well as reinforcing colors, numbers, patterns, and shapes along the way. We will spend a week focused on each letter and letter-sounds of the alphabet from A to Z. We will spend time playing games, singing songs, discovering objects, and creating alphabet-based art to help make learning our capital letters a FUN experience! We will work on a letter concept daily and encourage them to incorporate what we’ve learned throughout our daily activities.

With the help of our “Learning Without Tears” program, students will learn essential skills and concepts to kick start their writing abilities. This program assists students with hand strengthening, pencil grip, and fine motor skills. We will also integrate gross motor-based activities to improve posture and control as well. In the month of September, we will cover the letters: A, B, C, and D.

As always, we will continue reinforcing basic math concepts (colors, shapes, numbers, and counting) throughout the day. Additionally, we will spend time exploring the wonders of science both inside the classroom during special activities and outside on our beautiful playground.

Please make sure your child’s belongings are labeled with both their first and last name. Thank you for all your support as we begin our new school year! We look forward to an AWESOME year full of learning, laughter and LOVE!

Mrs. Mary, Mrs. Lisa & Ms. Asiyah
