

Ms. Lee's Pre-K 2
2026 Newsletter

Dear Parents,

This month we are welcoming Spring and all of the beautiful changes nature brings! Our theme this month will focus on gardening and insects. We will explore changes that are happening in nature during this season. Our classroom will be getting our very own caterpillars! We are going to watch them grow, form a chrysalis, and turn into beautiful butterflies! We will also plant our own little see-through garden where we can observe the parts of a plant and how they grow! We will also celebrate Earth Day and how we can help our planet thrive. Other concepts that will be introduced include:

Color: **Yellow**

Shape: Oval 

Number: 9

Nursery Rhymes/Stories:

The Very Hungry Caterpillar

Counting in the Garden

How Many Bugs in a box?

Mr. Sun, Sun.

Humpty Dumpty

Hop Little Bunny, Hop

On **Wednesday, April 15th (MWF Class)** and **Thursday, April 16th (T/TH Class)** your little ones will perform their class program that they have been working so hard on for the last several months. Please look out for important information regarding the program the week prior. Family members are invited to the show which will begin at 9am. There will be a short reception with juice and cookies following the show!

Sincerely,

Ms. Lee, Ms. Joani, and Ms. CeCe
