

APRIL

newsletter

Dear Pre-K 3 Families,

Spring is in full bloom in Pre-K 3! We will explore themes of Spring, gardening, and Earth in April. We will discuss the life cycle of a butterfly, and watch real caterpillars transform in our classroom! We will learn about plants, baby animals, and other “Spring Things.” We will finish off our study of the alphabet this month with the letters:

XYZ

This month we will continue working on strengthening our hand muscles and fine motor coordination, as well as improving our scissor skills. Pick up a pair of scissors and practice at home!

In honor of Earth Day, we will learn all about being kind to our planet. We will talk about ways to reduce, re-use, and recycle. We will plant seeds and learn how to care for plants. Please be on the lookout for further information regarding our special Earth Week activities.

Ms. Talia and Ms. Miranda

Important Dates
